500TX

Unique WetCap Cleaning System

Our unique WetCap System is fully integrated to the printers cleaning System it keeps the print head always clean and prevents drying of the ink channels while printer is idle.

Auto Adjustable Height Adjustment

Infrared Laser allows the automatic adjustment of the Product Height. Laser also protects the print head from running across any garment keeping your print head like new!

Advanced Control Functions

Take full control of your printer direct from the Integrated control panel. functions Include **Auto Cleaning, Step and Repeat, Print Head Manager, Micro Movements** and more!

New All-In-One Shirt Board!
The included shirt board gives you 12 Infant, 6 Youth, 6 Sleeve, 2 Adult and 1 Giant print area. Just add the included cap boards to bridge the gap between smaller boards. This saves you \$100's of dollars in optional boards.
